## ROBERT FERRER I MARTORELL / Valencia 1978

In recent years, Ferrer has established himself as one of the leading voices in contemporary geometric abstraction in Spain, achieving institutional recognition and a significant presence in the most relevant artistic circles. A major milestone in his career was his selection by the Cervantes Institute in Paris to create a large-scale, site-specific installation in 2016 with the project "Porta oberta a l'invisible". Presenting his work in the French capital, within the framework of the Cervantes Institute, allowed him to gain international recognition from both the public and critics, marking the beginning of a remarkable international career. Since then, Ferrer i Martorell has exhibited his creations at numerous international art fairs and exhibitions such as Arco, Artbo, Art Abu Dhabi, and Art Dubai. A solo exhibition will open on April 21 at the MALI Museum in Lima, Peru. In Spain, his work has been exhibited at prestigious institutions such as the Francisco Sobrino Museum, the Chirivella Foundation, and the CAB in Burgos. His presence in museums and art fairs in various countries demonstrates the widespread recognition he enjoys among curators, collectors, and specialized audiences, placing him among the most promising Spanish artists of his generation.

His works have enriched the holdings of important public and private collections, such as the Helga de Alvear Collection, the Phillips Collection, the Eduardo Hochschild Collection, and the Ars Citerior Collection (specializing in Spanish geometric abstraction).
